RE: 11/21/2025 School Incident

Good evening Assistant Principal McKenney,

Thank you for allowing my son to call me this afternoon regarding the school incident. Also, thank you for taking the time to tell me what happened with my son; however, I was never told that you took a statement from my minor son when I, as his Parent, wasn't present or was given a copy to have or to review to the same.

In speaking with my minor child, he advised me, he had to write a statement and he had to sign it. This is how I learned about the statement after the fact, and in full detail what occurred with the incident today.

My minor son stated also that he was made to do the statement before he called me with you present.

As a Parent, please contact me first regarding my minor child before any statements, him signing anything, to include any and all documents, or if any questioning needs are requested please. At all times, I request, as the Parent, to be present for all matters regarding my minor son who is a student in the school.

I advised my child to request me to be present at all times. Also, please note, I am always available to call, email, and come to the school to the same at any time. I am truly dedicated to my child and his needs at all times.

Thank you,
